Medismart Warehouse

Strip-wise stock with barcode labels

Items - Stock - Shelves - Shop requests - Scan and dispatch - Returns

User Guide

Step by step: warehouse software kaise use karna hai

Demo login (check karne ke liye)
Warehouse Admin: username **admin**, password **admin**
Warehouse Keeper (staff): username **keeper**, password **keeper**
Pehle login ke baad passwords badal dena (Tools - Staff and Rights).

Software kholne ke liye: folder me **index.html** double-click karo. Koi install nahi chahiye. barcode scanner USB wala (keyboard type) chalega.

Is guide me kya hai

No.	Topic
1	Pura chakkar: shop se request se wapsi tak
2	Login aur screen ki pehchaan
3	Nayi dawai banana (shelf ke saath)
4	Maal aaya: Add Stock, prices aur barcode labels
5	Labels chipkana aur shelf par rakhna
6	Stock, shelves aur strip lookup
7	Shop ki request: scan karke dispatch
8	Shop ka return
9	Expiry, write-off aur alerts
10	Reports
11	Staff, rights aur attendance
12	Files, routine aur dikkatein

Sabse zaroori baatein

1. Dawai pehle **Items** me banti hai, **shelf ke saath** (bina shelf ke item save nahi hota).
2. Maal aane par **Add Stock**: batch, expiry, strips, **purchase price** aur **shop ko selling price**. Har strip ka apna **barcode label** banta hai.
3. Shop ko maal bhejte waqt har strip **scan** hoti hai. Jo strip scan nahi hui wo shop ko nahi jaati.
4. Roz ka **backup** lena mat bhoolna (File - Backup and Restore).

1. Pura chakkar

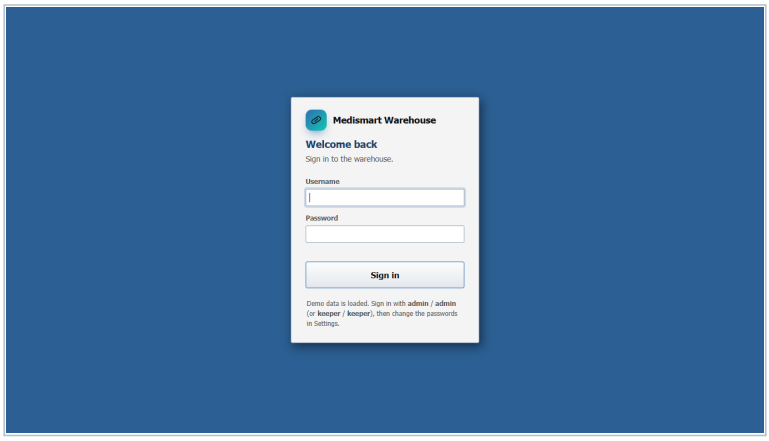

Warehouse se shop ko maal jaata hai aur kabhi wapas bhi aata hai. Sab kuch **strip ke QR** se track hota hai.

Kaun	Kya karta hai	Software me kahan
Warehouse	Nayi dawai banata hai, shelf deta hai	Items - New / Edit Item
Warehouse	Maal aane par stock add karta hai, barcode labels print karta hai	Stock - Add Stock
Warehouse	Labels strips par chipkata hai, shelf par rakhta hai	Shelf screen par dikhti hai
Shop	Request file bhejta hai	Shop ke software se
Warehouse	Request import karke strips scan karta hai, dispatch karta hai	Shops - Shop Requests
Shop	Dispatch file import karke maal receive karta hai	Shop ke software me
Shop	Return file bhejta hai (expired / damaged / fazool)	Shop ke software se
Warehouse	Return import karke check karta hai, stock me ya write-off	Shops - Returns from Shops

Warehouse aur shop ke software alag hain. Abhi dono **files** se baat karte hain (section 12). Baad me ise live jod sakte hain.

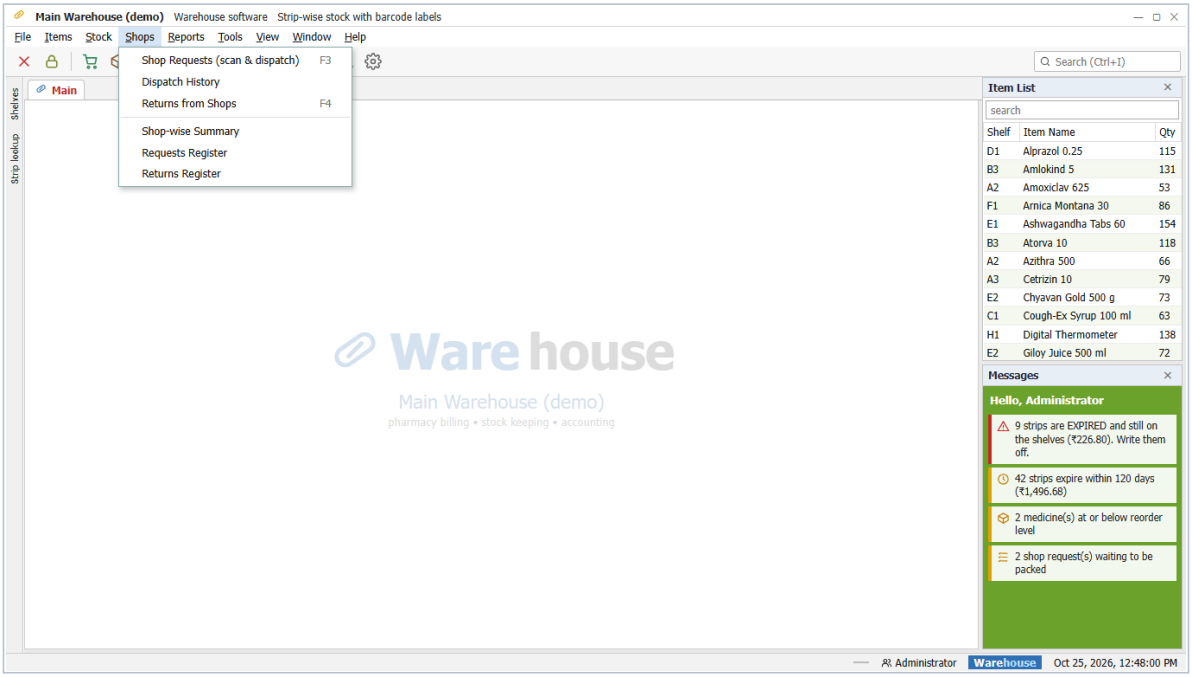

2. Login aur screen ki pehchaan

1. Folder me **index.html** double-click karo.
2. Username aur password daalo (demo: **admin / admin**).
3. Staff login karte hi uski **attendance apne aap lag jaati hai**.

Login screen

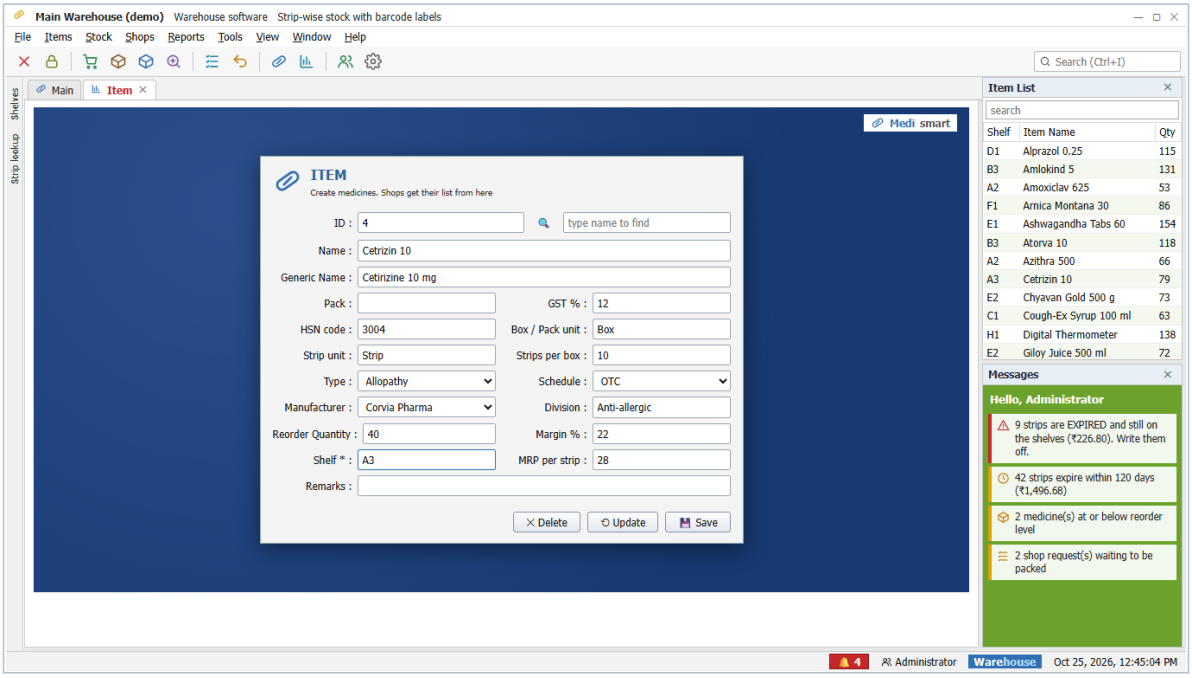

- **Upar menu bar:** File, Items, Stock, Shops, Reports, Tools, View, Window, Help.
- **Toolbar:** Add stock, Stock, Shelves, Strip lookup, Shop requests, Returns, Items, Reports.
- **Tabs:** jo screen kholte ho wo tab me khulti hai. x se band karo.
- **Right side:** Item List (shelf aur strips ke saath) aur Messages (alerts).

Shops menu: requests, dispatch history, returns

3. Nayi dawai banana (shelf ke saath)

Items - New / Edit Item kholo.

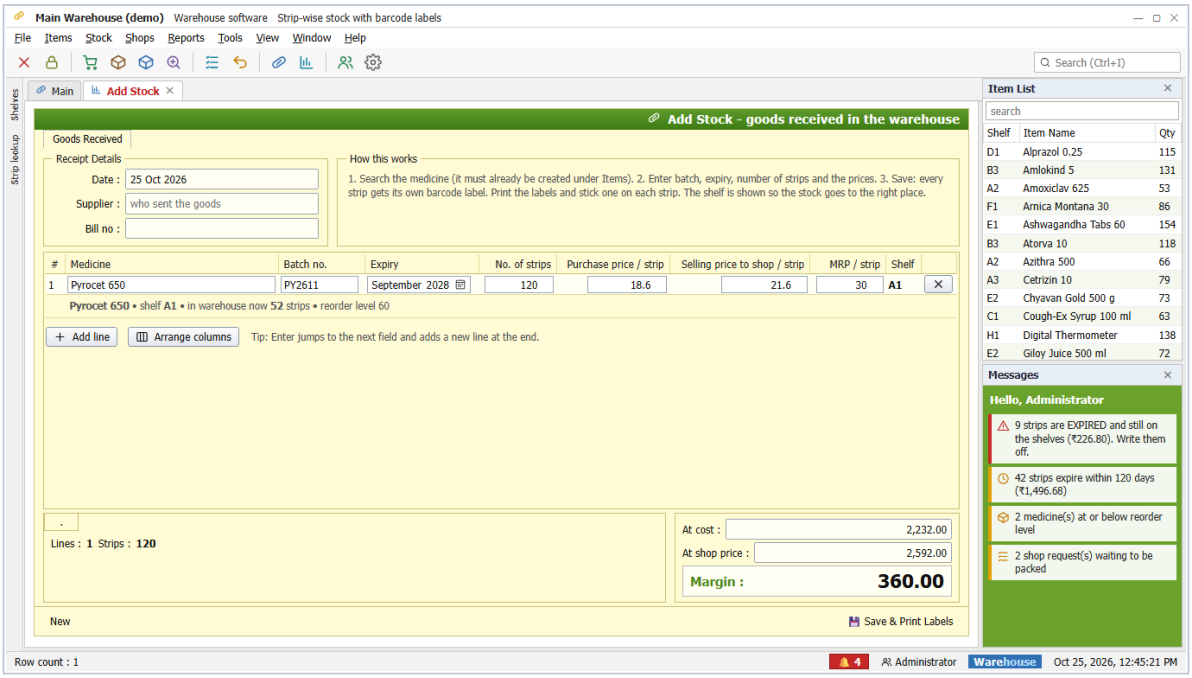

Item dialog: naam, GST, MRP aur Shelf

1. Naam, generic naam, type (Allopathy / Ayurvedic...), schedule (H / H1 / X), manufacturer bharo.
2. GST %, HSN, kitni strips ek box me (Strips per box) aur **MRP per strip** daalo.
3. **Shelf** zaroor likho (jaise A1, C7). Bina shelf ke save nahi hoga. Purani shelf ke naam suggest hote hain.
4. **Save** dabao. Pehle se bani dawai badalni ho to uska naam likh ke find karo aur **Update** dabao.

Shops ko item list kaise milti hai
Shop khud dawai nahi banata. Dispatch ke saath har nayi dawai ki detail shop ko apne aap chali jaati hai. Chahiye to **Items - Item List for Shops (file)** se poori list ki file de sakte ho.

4. Maal aaya: Add Stock, prices aur barcode labels

Stock - Add Stock kholo ya **F2** dabao.

Add Stock: dawai chuno, batch, expiry, strips, purchase price aur shop ko selling price

1. Upar **supplier** aur **bill no** likh do (record ke liye).
2. **Medicine** box me dawai ka naam likho aur list se chuno. Dawai pehle se Items me banee honi chahiye.
3. **Batch no.** aur **Expiry** bharo.
4. **No. of strips**: kitni strips aayi.
5. **Purchase price / strip**: aapne kitne me kharida. **Selling price to shop / strip**: shop ko kitne me bechna hai. **MRP** dawai ke dabbe se.
6. Neeche dikhta hai total cost, total shop price aur **margin**.
7. **Save and Print Labels** dabao.

Dhyan rakho
Purchase price sirf warehouse me rehti hai. Shop ko sirf **selling price** aur MRP dikhte hain. Ek hi screen par ek se zyada dawai ki lines daal sakte ho.

5. Labels chipkana aur shelf par rakhna

Save karte hi ek window aati hai jisme har dawai ke saamne **"Keep on shelf"** likha hota hai, taaki maal sahi jagah jaaye. **Print labels** dabao.

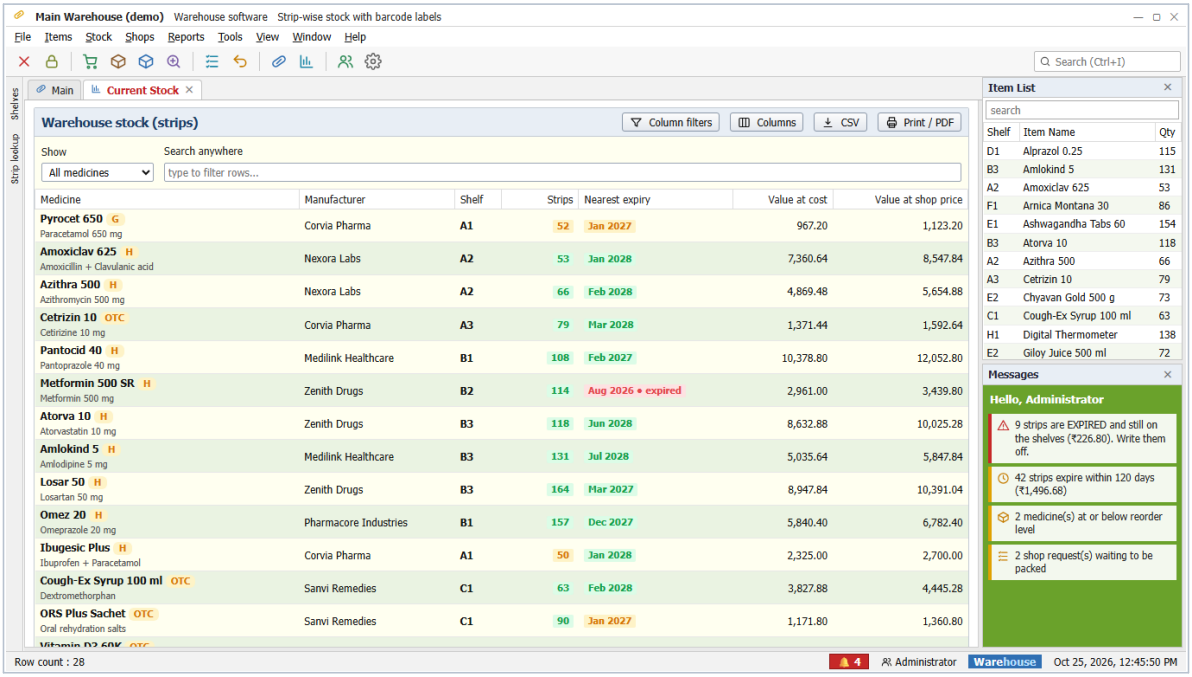

Har strip ka apna barcode label: dawai ka naam, expiry, batch, MRP aur strip ka code

- Har label par **alag barcode** aur uske neeche code likha hota hai (jaise L4-001, L4-002). Isse har strip alag track hoti hai.
- Label chipkane ke baad strip shelf par rakho. Label kharab ho jaye to **Stock - Current Stock** me dawai kholo aur lot ke saamne **Labels** dabao, dobara print ho jayega.
- Label sheet par 4 labels ek line me aate hain. Printer me normal A4 sticker sheet ya label printer chalega.

6. Stock, shelves aur strip lookup

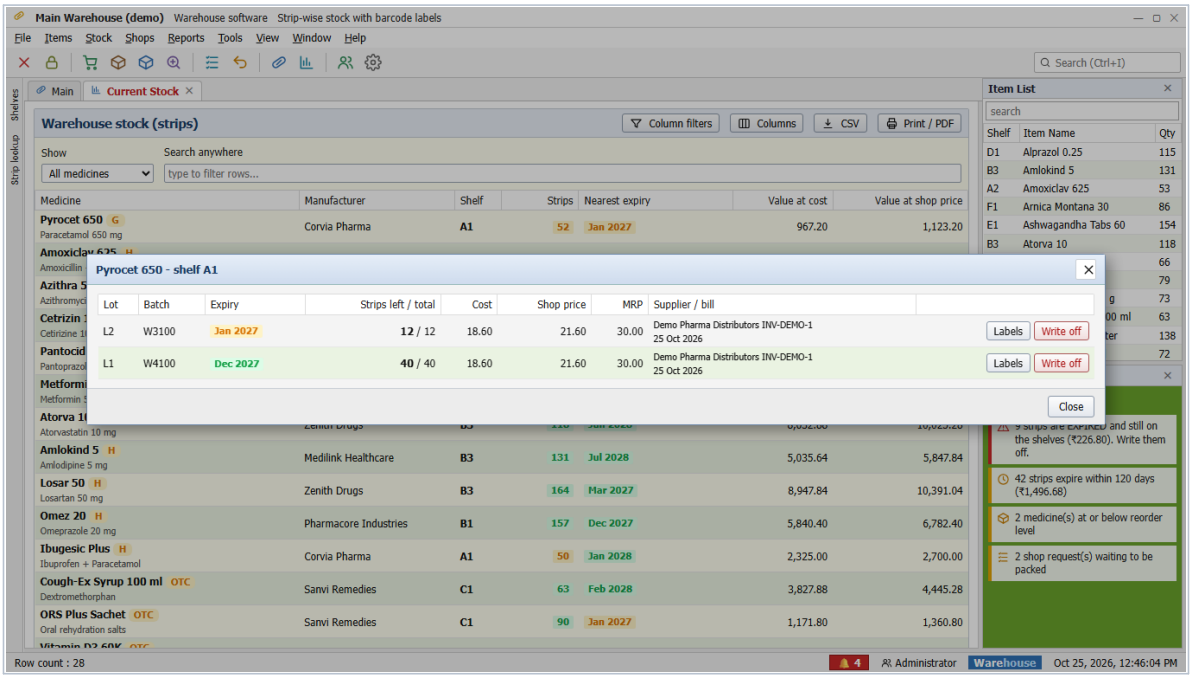

Current Stock

Stock - Current Stock (F5): har dawai ki shelf, kitni strips, sabse jaldi expire hone wali date, cost aur shop price ki value.

Current Stock

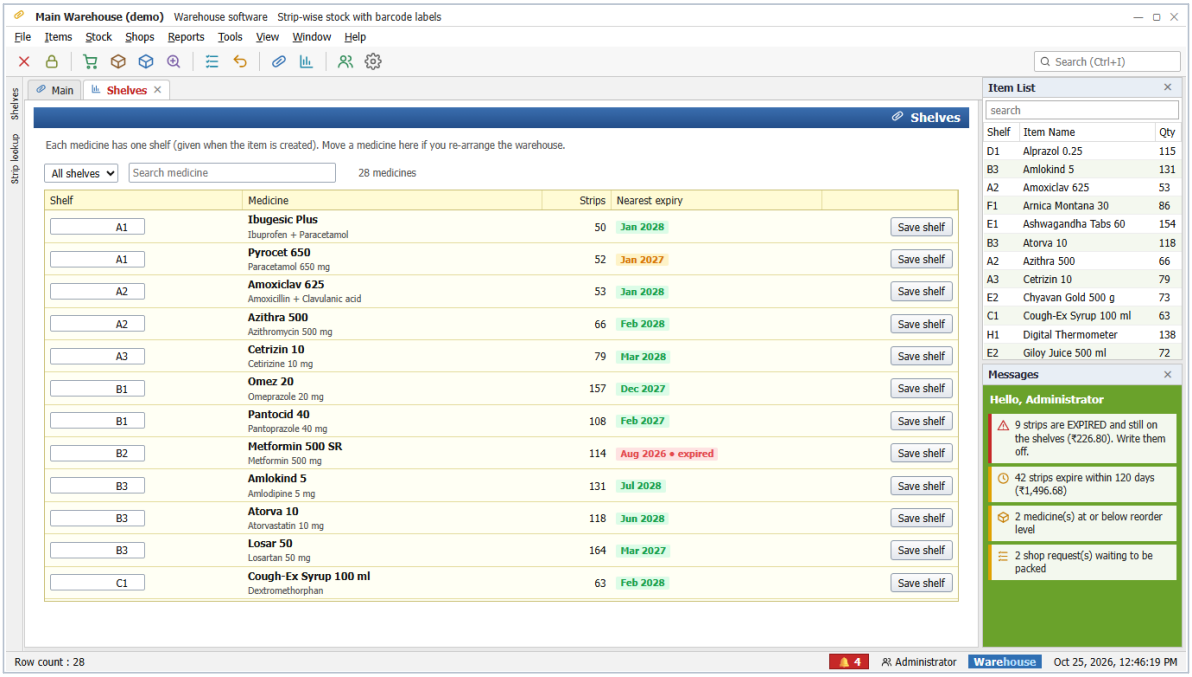

Dawai par click karo to uske saare **lots** khulte hain:

Lots: batch, expiry, bachi hui strips, prices, supplier. Yahin se labels dobara print aur write-off hota hai

Shelves

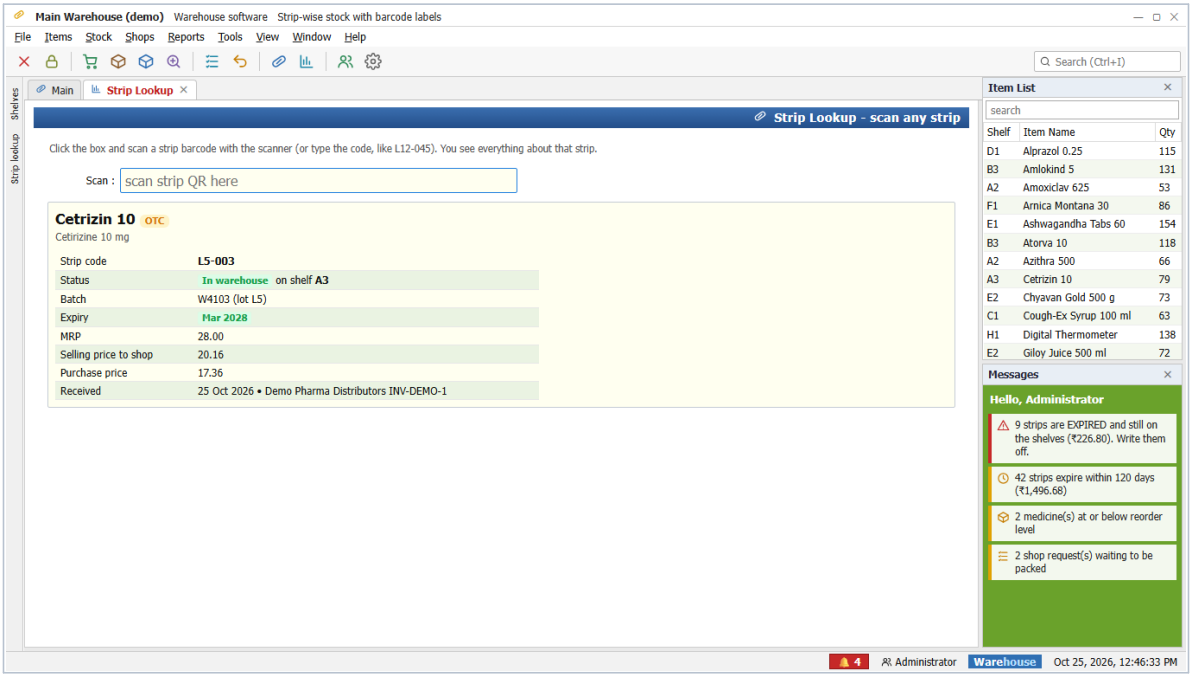

Stock - Shelves: kaunsi shelf par kaunsi dawai hai. Godown change karna ho to shelf badal ke **Save shelf** dabao.

Shelves

Strip Lookup

Stock - Strip Lookup (F6): box me kisi bhi strip ka label scan karo. Dikhega: kaunsi dawai, batch, expiry, prices, abhi warehouse me hai ya kis shop ko kab gayi, ya write-off ho gayi.

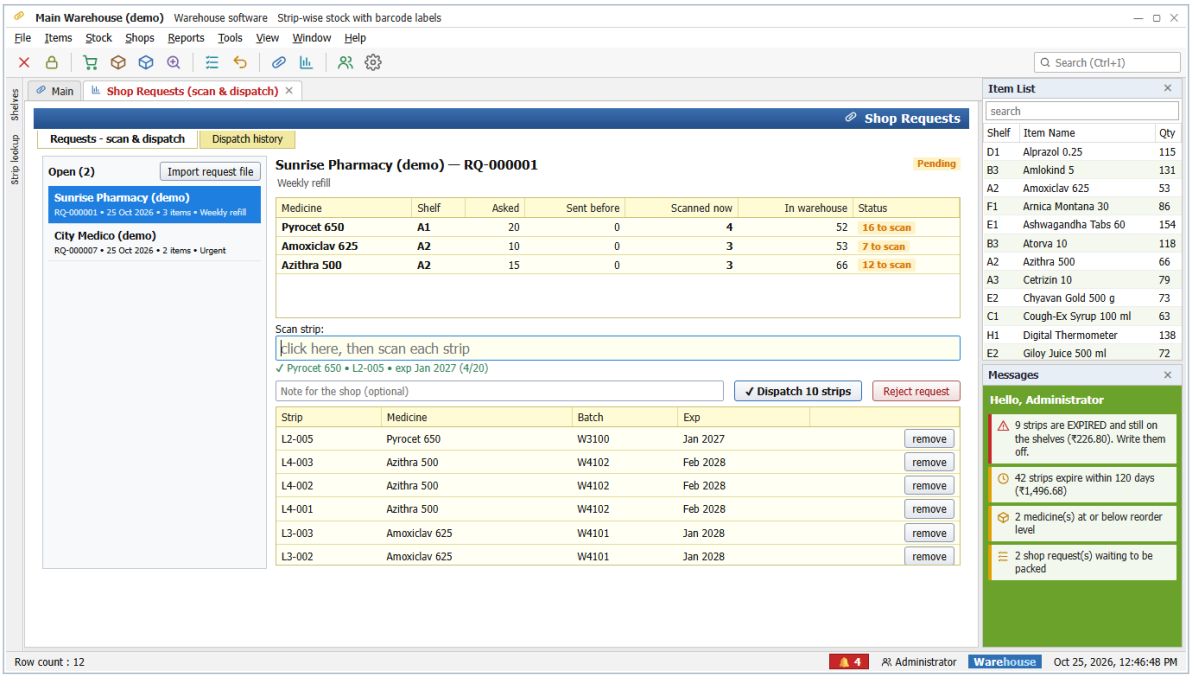

Strip Lookup

7. Shop ki request: scan karke dispatch

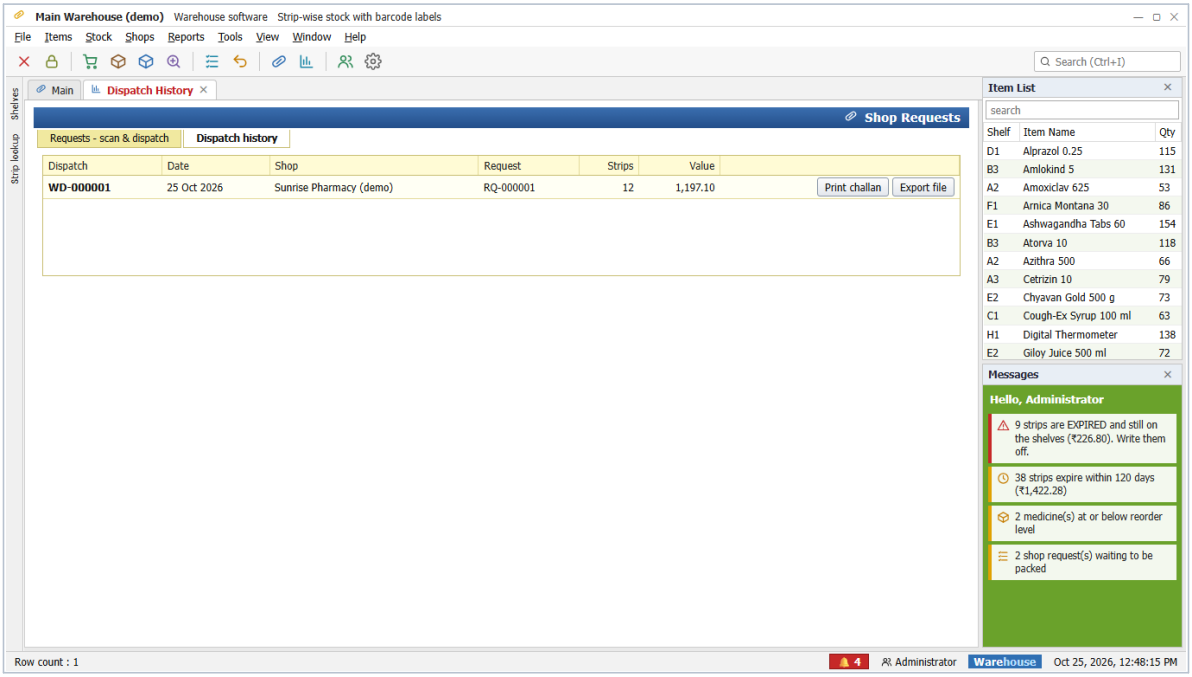

Shops - Shop Requests kholo ya **F3** dabao.

1. Shop ne jo **request file** di hai use **Import request file** se daalo. Request left list me aa jaati hai.
2. Request chuno. Table me dikhta hai: kaunsi dawai, kitni chahiye, **shelf** kaunsi hai, warehouse me kitni hai.
3. Dawai shelf se nikaal ke **table par laao**.
4. **Scan strip** box me click karo aur har strip ka label scanner se scan karo. Har sahi scan par beep aati hai aur "Scanned now" badhta hai.
5. Galat strip scan hone par software mana karta hai (laal beep): maanga hi nahi tha / pehle hi bhej di / warehouse ki hai hi nahi / is request ke liye poori ho chuki.
6. Jaldi expire hone wala lot pehle bhejna chahiye. Agar aap doosra lot scan karoge to software batata hai ki pehle wala lot zyada jaldi expire hoga (sirf salah hai, rok nahi).
7. Sab scan ho jaye to **Dispatch** dabao. Dispatch ki file apne aap **Downloads** me save hoti hai, wo shop ko do. Challan bhi print kar sakte ho.

Request: scan karte jao, har dawai ke saamne dikhta hai kitni baaki hai

- Poori nahi mil rahi to jitni scan hui utni hi dispatch karo. Request **Partly dispatched** rehti hai, baaki baad me bhej sakte ho.
- Request galat hai to **Reject request** dabao aur karan likho.
- Dispatch ki file kisi aur din dobara chahiye to **Dispatch history** me **Export file**.

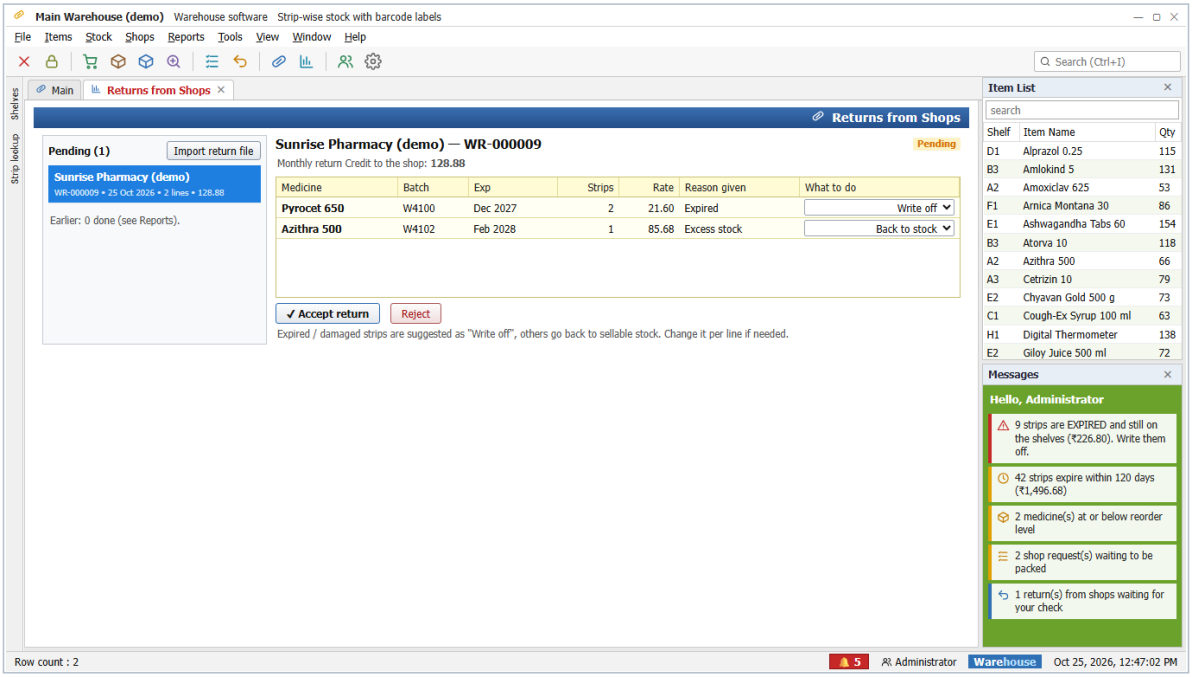

Dispatch history: challan print aur file export

8. Shop ka return

Shop expired, damaged ya fazool maal wapas bhejta hai. Wo apne software me strips scan karke har row ke saath **reason** likhta hai aur ek **return file** deta hai.

Shops - Returns from Shops kholo ya **F4** dabao.

1. **Import return file** dabao. Return left list me aa jaata hai.
2. Right side me har row ka **reason** dikhta hai (shop ne likha), aur kitna paisa shop ko credit hoga.
3. Maal table par rakh ke check karo.
4. Har row ke saamne chuno: **Back to stock** (theek hai, wapas bik sakta hai) ya **Write off** (expired / damaged). Expired aur damaged par apne aap Write off suggest hota hai.
5. **Accept return**: strips ya to wapas warehouse stock me aa jaati hain ya write-off me chali jaati hain.
6. Return galat ho to **Reject** aur karan likho.

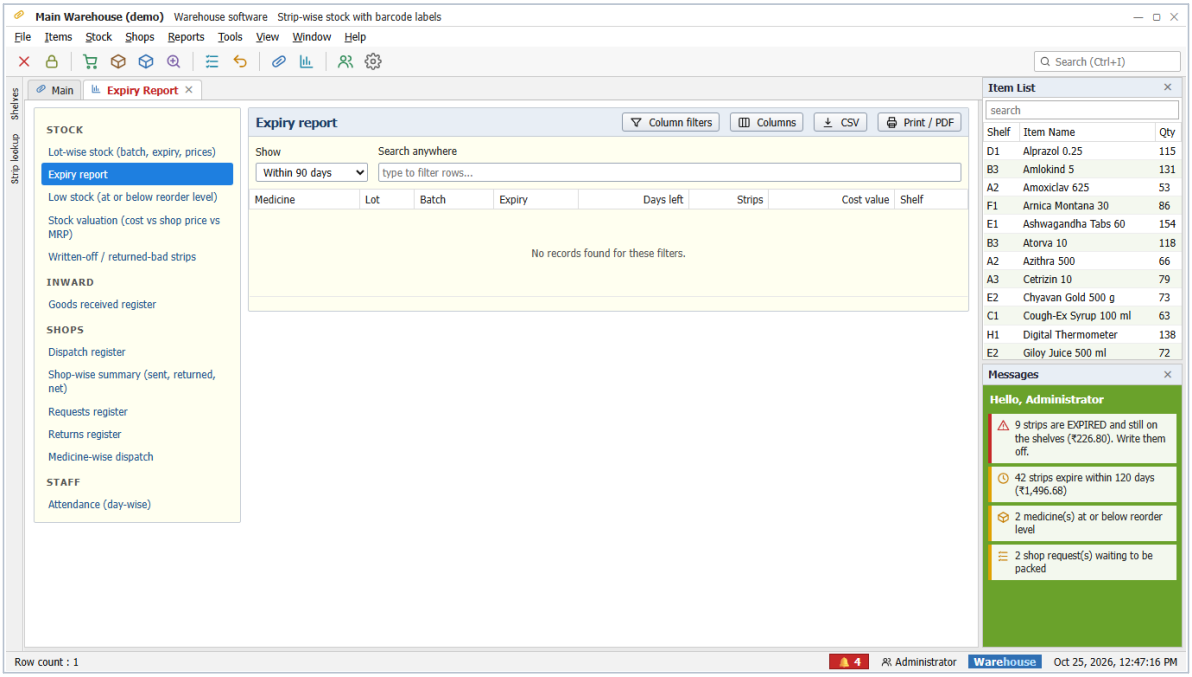

Returns from Shops

9. Expiry, write-off aur alerts

Right side ke **Messages** panel aur neeche ki ghanti me alerts aate hain:

Alert	Matlab	Kya karo
Laal: strips EXPIRED hain	Expire hua maal shelf par pada hai	Stock - Current Stock - dawai - lot - Write off
Peela: strips jaldi expire honge	Kuch din me expire (Options me din badal sakte ho)	Shop ko pehle bhejo
Reorder level se kam	Dawai khatam hone wali hai	Maal mangao, Add Stock karo
Shop requests pending	Request pack karni hai	Shops - Shop Requests
Returns pending	Shop ka return check karna hai	Shops - Returns from Shops
Attendance nahi lagi	Aaj punch in nahi hui	File - Attendance

Write off: lot kholo (Current Stock me dawai par click) aur lot ke saamne Write off dabao. Karan likho (Expired / Damaged). Bachi hui sab strips write-off me chali jaati hain aur **Reports - Written-off Stock** me dikhti hain.

Expiry report

10. Reports

Reports - All Reports (F7). Har report ko Print ya CSV kar sakte ho.

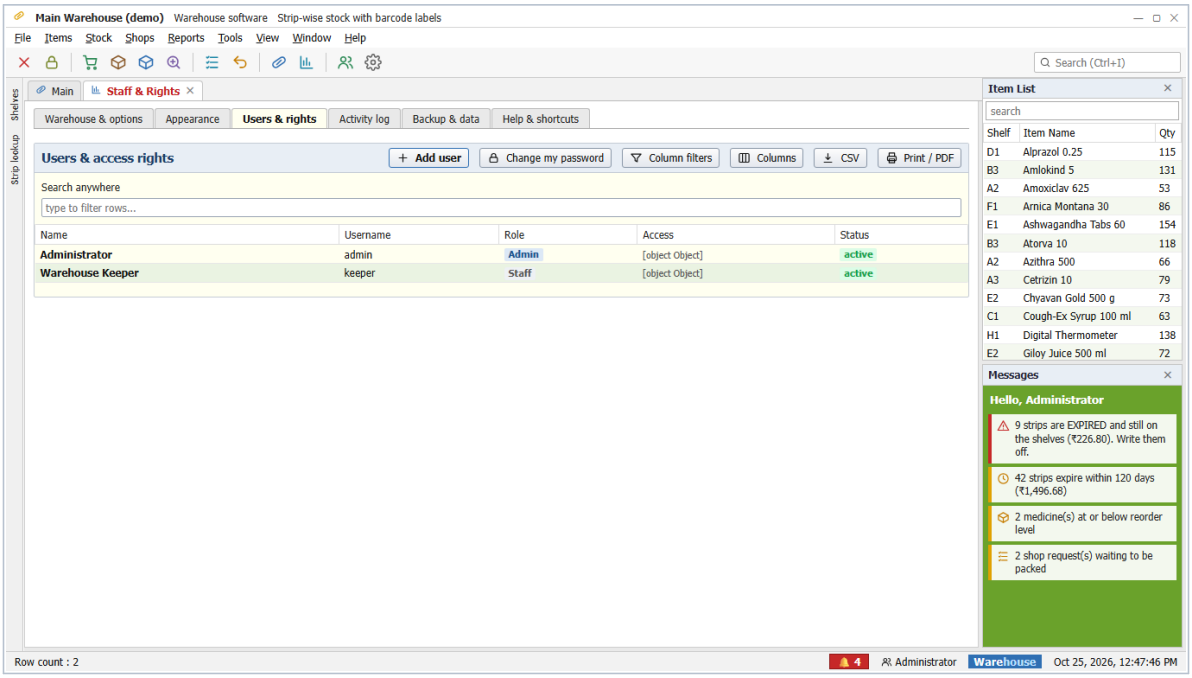

Report	Kya dikhata hai
Lot-wise Stock	Har lot: batch, expiry, bachi strips, cost, shop price, MRP
Expiry Report	Expire ho chuka ya 30/60/90/180 din me expire
Low Stock	Reorder level se kam wali dawai
Stock Valuation	Cost, shop price, MRP par stock ki value aur margin
Written-off Stock	Kya kab kyun write-off hua
Goods Received Register	Kab kya maal aaya, kitne ka, kis supplier se, kisne entry ki
Dispatch Register	Kis shop ko kab kitna bheja
Shop-wise Summary	Har shop: kitna bheja, kitna wapas aaya, net
Medicine-wise Dispatch	Kaunsi dawai sabse zyada gayi
Requests / Returns Register	Saari requests aur returns ka status
Attendance	Din-wise staff attendance aur ghante

11. Staff, rights aur attendance

Warehouse ka **admin sirf ek** hota hai. Baaki staff ko wahi screens dikhti hain jo admin allow kare.

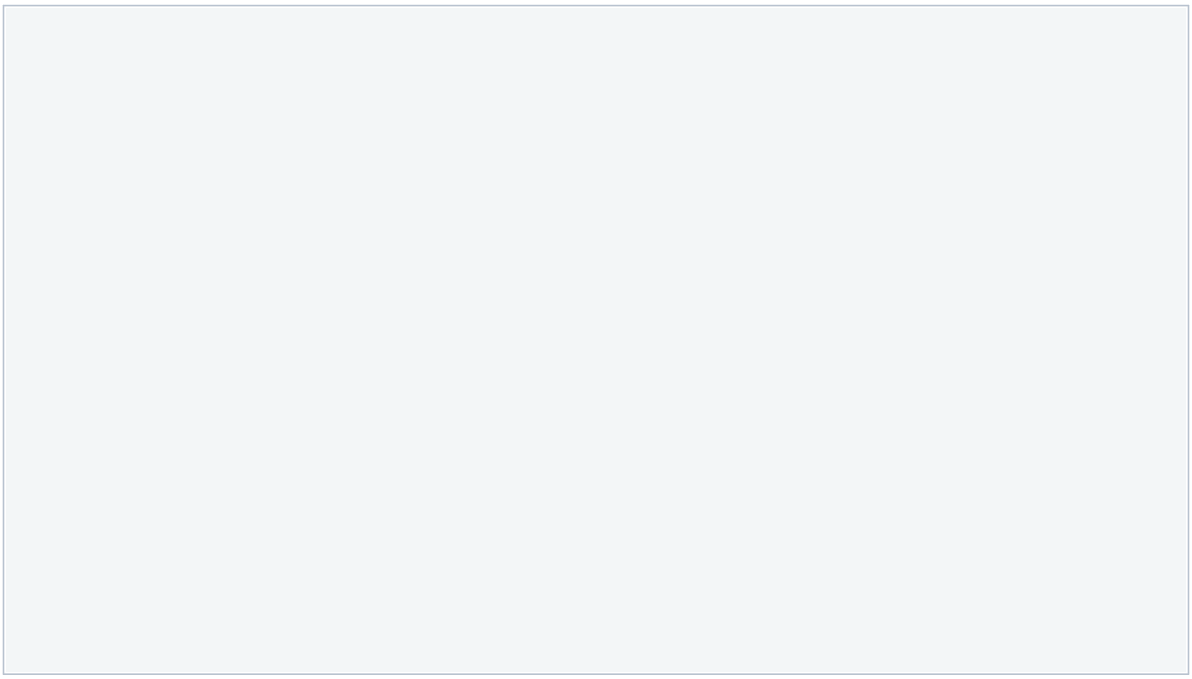

1. **Tools - Staff and Rights** kholo.
2. **Add user**: naam, username, password do.

3. Tick karo staff kya kar sake: Items banana, Add stock, Stock dekhna, Shop requests, Returns, Reports.
4. Save karo.

Staff aur rights

- Login karte hi **punch in**, logout par **punch out**. Late aaye to orange nishan.
- File - Attendance me apni attendance. **Admin** ko sabka register dikhta hai, kisi din ko edit kar sakta hai aur CSV nikal sakta hai.
- Shift ka time Tools - Options me.

Attendance register

12. Files, routine aur dikkatein

Shop aur warehouse ke beech teen tarah ki file chalti hai:

File	Kaun deta hai	Warehouse me kahan
Request file (.request.json)	Shop	Shops - Shop Requests - Import request file
Dispatch file (.dispatch.json)	Warehouse (apne aap banti hai)	Dispatch karte hi Downloads me. Dobara: Dispatch history - Export file
Return file (.return.json)	Shop	Shops - Returns from Shops - Import return file
Item list file	Warehouse	Items - Item List for Shops (file)

Roz ka routine

Kab	Kya karo
Subah	Login. Messages dekho (expiry, requests, returns). Attendance lag gayi?
Maal aaye	Items me dawai hai? Nahi to banao. Stock - Add Stock, prices bharo, labels print karke chipkao, shelf par rakho.
Request aaye	Shops - Shop Requests: import, scan, dispatch, file shop ko do.
Return aaye	Shops - Returns from Shops: import, check, accept.
Hafte me	Expiry report, write-off, backup.

Aam dikkatein

Dikkat	Kya karo
Item save nahi ho raha	Shelf aur MRP likhna zaroori hai.
Add Stock me "no shelf" ya "price" ka message	Item kholo aur shelf do. Purchase price aur selling price dono daalo.
Scan par kuch nahi hota	Scan box me click karo (cursor chamakna chahiye). Scanner keyboard mode me ho.
"not in this warehouse" aaya	Label dusre warehouse ka ya purana hai. Strip Lookup se check karo.
Request me dawai laal (not in item list)	Wo dawai Items me banao. Request dobara kholo.
Data gayab	Dusre browser me khola hoga. Backup se restore karo.

Backup kaise lein
File - Backup and Restore - Download backup (.json). File kisi safe jagah rakho. Computer badalna ho to usi page se backup file wapas daalo. Zyada strips (lakhon) ho jaye to software slow ho sakta hai, tab live server wala version banana padega.
